

TechMart Electronics - Quick Installation Guide

Step 1: Download the App

Search for "TechMart Companion" in the Apple App Store or Google Play Store. Download and open the app.

Step 2: Create an Account

Open the app and tap "Sign Up". Enter your email address and create a secure password. Verify your email.

Step 3: Power On Your Device

Unbox your TechMart product. Press and hold the power button for 3 seconds until the LED indicator flashes blue. This indicates the device is in pairing mode.

Step 4: Pair via Bluetooth

On the app, tap the "+" icon in the top right corner. Select your device from the list (e.g., "SmartHub Pro"). Ensure your phone's Bluetooth is turned on. Tap "Pair".

Step 5: Connect to Wi-Fi (For SmartHub Only)

Follow the on-screen prompts to connect your SmartHub to your 2.4GHz home Wi-Fi network. Do not use 5GHz networks during initial setup.

Step 6: Update Firmware

The app will automatically check for firmware updates. If an update is available, click "Download and Install". Do not turn off the device during this process.
